

Surgical Procedures in Ovarian Cancer (SuPROC) Live Cadaver Course

Ethicon

Monday 19th April

Virtual – Zoom

Live streamed from NSTC, Newcastle

**Please contact your local Ethicon sales specialist to register.
This virtual course will award CPD points.**

Welcome to the Johnson & Johnson Institute

This virtual course is an opportunity to observe cadaveric surgery streaming live from the NSTC centre in Newcastle.

We have designed the course to deepen your knowledge of patient selection, surgical strategy, techniques, surgical instrumentation and complication management in relation to surgery and general management of advanced ovarian cancer. There will also be a discussion session covering your specific questions and learning objectives and access to the Surgical Process Institute (SPI) system pre-course.

This course is specifically targeted at GYNONC Sub-Specialty trainees.

I wish you a very instructive course.

Yours sincerely,

Hannah Cutting
