The Global Gynaecological Oncology Surgical Outcomes Collaborative (**GO SOAR**) aims to improve surgical outcomes through collaborative research by:

1. developing a network of gynaecological oncologists that have the long-term ability to collaborate on future outcome studies;
2. facilitating audit and research capacity building in regions that currently lack local opportunities for development;
3. collecting high quality standardised prospective data via a centralised database.

AGENDA

10:00-10:10 GMT: Welcome – Dr Faiza Gaba (Collaborative Lead, The Royal London Hospital & University of Aberdeen, UK)

Session 1: Peri-operative management in gynaecological oncology

Moderators: Dr Arjun Jeyarajah (Consultant Gynaecological Oncologist at The Royal London Hospital, UK) & Dr Anna Minicozzi (Consultant Colorectal Surgeon at The Royal London Hospital, UK)

10:10-10:45 GMT GO SOAR1 study results – Dr Faiza Gaba (Chief Investigator, The Royal London Hospital & University of Aberdeen, UK)

10.45-11.15 GMT Predicting peri-operative risk – Dr Mev Gooneratne (Consultant Anaesthetist, The Royal London Hospital, UK)

11.15-11.45 GMT Challenges to implementation of ERAS pathways LMIC perspective – Dr Paul Kamfwa (Consultant Gynaecological Oncologist, Cancer Diseases Hospital, Zambia)

11.45 -12.00 GMT Coffee Break

Session 2: GO SOAR ovarian cancer

Moderators: Dr Saurabh Phadnis (Consultant Gynaecological Oncologist at The Royal London Hospital, UK) & Dr John Butler (Consultant Gynaecological Oncologist at Royal Marsden Hospital, UK)

12.00-12:30 GMT Ovarian cancer cytoreductive surgery in Egypt, context specific challenges – Dr Basel Refky (Assistant professor of surgical oncology & gynaecological oncology, Oncology Center, Mansoura University, Egypt)

12.30-13.00 GMT Levelling up international disparities in management of ovarian cancer: PARSGO – Dr Sara Nasser (PARSGO Executive Officer, Charite Comprehensive Cancer Center, Germany)

13.00-13.30 GMT GO SOAR2 study - Dr Faiza Gaba (Chief Investigator, The Royal London Hospital & University of Aberdeen, UK)

13.30-14:30 GMT Lunch

Session 3: GO SOAR robotic surgery

Moderator: Dr Dhivya Chandrasekaran (Consultant Gynaecological Oncologist at University College London Hospital, UK)

14:30-15:00 GMT The role of minimally invasive surgery in gynaecological oncology post LACC trial – Prof Pedro Ramirez (Professor of Gynaecological Oncology, MD Anderson Cancer Center, USA)

15.30-16.00 GMT Human factors involved in the integration of robotic surgery into gynaecological oncology, the Gemelli experience - Dr Nicolò Bizzarri (Consultant Gynaecological Oncologist, Policlinico Agostino Gemelli IRCCS, Italy)

16:00-16:30 GMT GO SOAR3 study – Dr Elly Brockbank (Consultant Gynaecological Oncologist, The Royal London Hospital, UK)

16.00-16:10 GMT Close – Dr Faiza Gaba (Collaborative lead, The Royal London Hospital & University of Aberdeen, UK)
